

LONDON 2019

In March, a group of 29 students from IES Pablo Serrano together with three teachers went on the traditional trip the English department offers to first of Bachillerato students to go to London. There, we enjoyed the British culture and its landmarks; we all had a great time visiting the most iconic places in London and tasting the most savoury dishes. It was a thrilling trip, full of good emotions and everything went with the flow. Moreover, we visited Oxford to complete the experience of a lifetime.

Students' comments

We visited the most famous places in the city: the Tower Bridge, the London Eye, Trafalgar Square or the British Museum among other things. We also spent a morning in Oxford, another beautiful town, where we discovered lots of facilities related to the University. In addition, we had time to try different gastronomic styles, go shopping, learn about different cultures and, as we expected, enjoy every moment. However, the most important thing is that all this was useful to know each other better and strengthen links with our colleagues and teachers.

Arturo García Ramos

I'll never forget this incredible experience, I'm really grateful to all the people that organized this trip because I had a lot of fun and I got closer to some people of my high school I never had the chance to talk to before. I strongly recommend to go on this trip since you would really enjoy the breathtaking city of London with all the friends you love most!

Consuelo Centurelli

In my opinion, this trip is an opportunity or a reward for some people, those whodeserve it. It's an amazing week with your friends at another great city like London where you will have fun with your friends and teachers, you will visit an amazing city, you will know about history, sciences... but that is not all, you will be at a hotel full of young people from everywhere and you can meet them while you practice your English.

Marc Gómez

We were all very excited because we had been waiting for this trip for a long time. It took us a while to get used to the schedules because we ate and we had dinner too early but that wasn't important. We visited everything in London, going from one place to another not to leave anything unseen. We bought many souvenirs, but the best of all was that we got to know each other much more and it became an unforgettable trip.
