

## IIS LUCA PACIOLI & IES PABLO SERRANO EXCHANGE

Once again students of 3º, 4º ESO and 1º Bachillerato took part in the annual exchange with IIS Luca Pacioli in Crema, Italy. It was an outstanding activity full of art and culture that our students really enjoyed. They not only practised English but also learned a bit of Italian.

### Students' comments

My trip to Italy was an amazing experience, because we went to many places in seven days. I like travelling with my high school and my friends. I knew another life, another culture, language and food. I also met my new friend, Simona. She is very funny and pleasant.

One of the reasons why I went to Italy is because I want to learn English and know new places. At the weekend, I was with Simona's family. They are funny, friendly, ...I'm grateful to this family. Monday in Venice was a sad day because it was rainy and cold, but, in the afternoon, it was fun.

My favourite day in Italy was the trip to Verona and Sirmione, because in Verona there is a balcony of Romeo and Juliet, and in Sirmione, there is a very beautiful pleasant lake.

**Kate Alvarez Aguilar, 3ºA ESO**

My name is Marcos Andreu, I'm a student of 3ºESO and this exchange was the first exchange of my life. I've travelled to a lot of countries like: the UK, Italy, Greece, France, Croatia, ... but never like this trip.

When you think about an exchange, you think "I'm going to stay every day at school" but this exchange is not this type. It is an amazing exchange. You visit a lot of cities, towns, you meet other people, you can taste their food and, believe me, it's an incredible food. You can learn new things of the Italian culture, and thanks to this trip, I met incredible people like Greta, my correspondent, or Marin, Emma, Giovanni, ... If I continue, I'll never finish.

Don't think and "andare in Italia"

**Marcos Andrew Duato, 3ºA ESO**

For me it has been the best exchange because Italians are much more open, and that's why I got along so well with my Italian Dalida. The family was very nice and very open with me, that's why I was so comfortable and didn't want to go back. We have already said that if we can, we would see each other again, either in Italy or in Spain. If they told me to come back, I would do the exchange without any doubt, because I had a great time and I saw many things.

**Paula López Ibáñez, 4ºB ESO**

I think that this experience has been unique and I hope to see all the participants of the exchange once again because we felt comfortable with them and we had a great time. I cannot forget the trip because I met wonderful people, I discovered a new culture, a new language and new places.

**Camila Arévalo Pillajo, 4º A ESO**
